Sheida Solar, as the new plant is called, is set to be the first of a growing handful of investments targeted the production of solar photovoltaic (PV) systems, and related hardware, for Oman's mega-billion dollar renewable energy and green hydrogen industries.

The mega-scale project, estimated to cost around \$700 million, will support the production of 5 gigawatts (GW) of high-efficiency solar panels per annum. The announcement was made by Jietai New Energy Technology Co, Ltd (Jietai Solar/JTPV), a wholly-owned subsidiary of Hainan Drinda New Energy Technology Co, in a post on Friday.

American manufacturer of mechanical and electrical products, Advanced Industries Inc. plans to build a solar photovoltaic panel manufacturing plant in southern Oman. It will have a capacity of 200 MW annually.

US mechanical and electrical products maker Advanced Industries Inc. is planning to build a factory for the production of solar photovoltaic (PV) panels in southern Oman with an annual capacity of 200 MW.

"We are excited to announce the launch of the first advanced photovoltaic production line in Oman," said Italy-based Ecoprogetti SRL in a post on Friday. "Sheida Industries LLC is proud to present a 50MW line, now producing 450, 550 and 590 watt panels with state-of-the-art Topcon technology.

A Chinese company specialising in production of solar photovoltaic (PV) modules has signed an agreement with Oman's Bakarati Investment to build an advanced solar PV module and cell production facility in Suhar.

American mechanical and electrical products manufacturer Advanced Industries Ltd. plans to build a solar photovoltaic panel factory with an annual capacity of 200 megawatts in southern Oman. A few days ago, the manufacturer has signed an agreement with the Salalah Free Zone, where the production base will be established.
