

Aggreko plc, the global leader in the rental of power generation and temperature control services today announced that it has been contracted to supply an 8 MW / 4.16kV stand-by power package on...

Aggreko is a world-leading provider of mobile modular power, temperature control and energy services. We provide temporary turnkey solutions, allowing our customers to focus on their business and production goals, knowing that everything related to power, heating, and cooling is in expert hands.

Aggreko is a world-leading provider of mobile modular power, temperature control and energy services. Operating in a rapidly changing energy market, our priority is to support our customers through the energy transition by providing cost-effective and flexible answers to the simple or complex challenges our customers face.

Our fully integrated, battery storage is a ready-to-install energy system in a standard container. Complete with batteries, inverter, HVAC, fire protection and auxiliary components, all tested by our experts and operated by the smartest software on the market.

230 Ton Chiller - Environmentally friendly Aggreko rental chillers are designed and built for harsh industrial environs. They provide supplemental, temporary or emergency cooling for high-volume applications -- such as at refineries or power stations.

Scalable for Demanding Projects: Compact two-container design enables large-scale energy storage for the toughest environments, providing flexibility and enhanced load management. All-in-One Design: Built-in HVAC, fire ...

Our generator rental solutions use remote monitoring technology to ensure efficiency and maximize uptime. This technology also carries sustainability benefits, as it reduces unnecessary power output. Our team of engineers monitors a range of parameters, including loads, maintenance requirements, warning and failure alarms, and GPS locations.
