

Is Airex energy a private company?

Airex Energy is a Private company. What is Airex Energy's current revenue? The current revenue for Airex Energy is . How much funding has Airex Energy raised over time?

Is Airex energy a joint venture?

Airex Energy's most recent deal was a Joint Venture with Carbonity. The deal was made on 05-Jul-2023. Ready to get started? When was Airex Energy founded? Airex Energy was founded in 2008. Where is Airex Energy headquartered? Airex Energy is headquartered in Laval,Canada. What is the size of Airex Energy? Airex Energy has 35 total employees.

Who is Airex Energy partnering with?

Sylvain Bertrand,CEO of AIREX ENERGY: "We are very pleased to partner with the SUEZ Group to accelerate the deployment of CarbonFXTM technology on a global scale.

What can Airex energy do for You?

Airex Energy provides solutions for a sustainable future. Helping reduce greenhouse gas emissions and remove carbon from the atmosphere. Biocoal,in the form of torrefied wood pellets,is a drop-in replacement for coal used in coal-fired power stations and district heating plants.

With expertise in the fields of organic residues, soil amendments, agricultural biofertilizers and smart irrigation, SUEZ will use the CarbonFX(TM) torrefaction technology developed by Airex Energy for the global deployment of industrial-scale production plants that transform residual lignocellulosic biomass (bark, sawdust, waste wood, etc ...

Airex Energy has successfully developed an exciting new technology for biomass torrefaction. Based on a unique patented cyclonic bed reactor, CarbonFX enables large scale biocoal production from a variety of feedstock, including woody ...

Airex Energy has successfully developed an exciting new technology for biomass torrefaction. Based on a unique patented cyclonic bed reactor, CarbonFX enables large scale biocoal production from a variety of feedstock, including woody biomass and agricultural waste.

Airex Energy specializes in transforming biomass waste into green carbon products within the sustainable energy sector. The company's proprietary CarbonFX technology produces biocoal, biochar, and biocarbon, which serve as solutions for reducing greenhouse gas emissions and removing carbon from the atmosphere.

Airex Energy provides solutions to a sustainable future. Helping reduce greenhouse gas emissions. Airex Energy's proprietary CarbonFX technology transforms sawmill by-products, logging residues and forestland

biomass into value-added biocarbon products.

Airex Energy provides solutions for a sustainable future. Helping reduce greenhouse gas emissions and remove carbon from the atmosphere. Airex Energy's proprietary CarbonFX technology transforms sawmill by-products, logging residues, and forestland biomass into carbon-rich, energy-dense products such as:
