

Who owns Ambri?

Ambri emerges from the sale with additional capital contribution from the Lender Consortium. Ambri will be led by co-founder Dr. David Bradwell as its chief executive officer.

Who founded Ambri?

In 2010 Donald Sadoway, David Bradwell and Luis Ortizco-founded the Liquid Metal Battery Corporation with seed money from Bill Gates and the French energy company, Total S.A. The offices were in Cambridge, Massachusetts and so they named the company AMBRI, from the heart of cAMBRIDGE.

Is Ambri a solution to the energy storage problem?

Because it is one of just two metal elements needed for the company's liquid metal battery technology that Ambri believes is the real solution to the energy storage problem that lithium-ion technology has been unable to satisfy.

Where did Ambri batteries come from?

Ambri batteries were born in the Group Sadoway lab at Massachusetts Institute of Technology where professor Donald Sadoway worked with David Bradwell to develop the Liquid Metal Battery technology.

Are Ambri batteries sustainable?

Ambri's sustainable, American-made batteries are built for daily cycling - even in extreme, harsh environments. Unlike rival technologies, Liquid Metal batteries have minimal degradation and can last for over 20 years.

What is Ambri liquid metal battery technology?

Ambri Liquid Metal battery technology fundamentally changes the way electric grids operate by increasing the contribution from renewable sources - enabling grid-scale solar and wind farms to replace coal, oil and natural gas peaker plants.
