

Does American Samoa have a solar microgrid?

The island of Ta'u in American Samoa now boasts a solar microgrid from Tesla's SolarCity. Join us in The People v. Climate Change and share an environmental portrait of someone taking positive steps to protect the Earth on YourShot or social media. Use #MyClimateAction to share a first-person perspective on how we as humans face climate change.

How many people live in Samoa?

(The island's population varies with the season but usually falls between 200 and 600 people.) The solar project was installed by SolarCity, a California-based company recently purchased by Elon Musk's Tesla. The \$8 million project was funded by the U.S. Department of Interior and the American Samoa Power Authority (ASPA).

How many solar panels does Ta'u have?

In 2016, the founders of Maui, Hawaii-based company Mana Pacific helped design and implement Ta'u's solar-energy microgrid composed of over 5,300 solar panels. This vast solar farm amounts to 1.4 megawatts of power generation capacity.

What is a church choir in American Samoa?

Ta'u, American Samoa -- On a recent Wednesday evening on the island of Ta'u--one of the outer islands in American Samoa--most of the people in all three villages are at pese--or church choir--practice. The annual island-wide youth group showcases are coming up and each choir senses the pressure of having to perfect their routines.

Is SolarCity creating solar Islands?

SolarCity was applauded when it announced its plans for solar roofs earlier this year. Now, it appears it is in the business of creating solar islands.

The SunSmart solar generator system is a revolutionary approach to solar power - without the downsides of fossil fuels, banks of storage batteries, and daylight-only functionality. Through new innovations in magnetic storage, SunSmart delivers uninterrupted power ...

This means that the island can stay powered for three full days without the sun shining and absorb enough solar energy in 7 hours of sunlight to top the pack back to 100 percent capacity. Tesla Powerpacks. American Samoa Economic Development Authority funded the project, and after a year of construction, it launched the solar array this week.

American Samoa's solar+storage microgrid. By Kathie Zipp ... Now, the island's electricity is almost entirely provided by the sun, with the installation by SolarCity of 5,328 solar PV panels, totaling 1.4 megawatts. ...

The American Samoa Economic Development Authority helped fund the project as well. Funds were granted to the local utility ...
