

# Are there any fake Canadian Solar photovoltaic panels

Is Canadian Solar a good brand?

As one of the top solar panel brands, Canadian Solar has a long history of success and big plans for the future. Canadian Solar offers some excellent solar panels at very good prices. The company's products compare favorably on performance with other top brands, and they stand behind them with excellent warranties.

Does Canadian Solar offer bifacial solar panels?

For commercial and industrial markets, Canadian also offers a bifacial solar module called the BiHiKu. For residential use in the United States, Canadian Solar offers three main solar panel module series: HiKu, HiKu6, and HiKuBlack. Here's some information about each of these products: Canadian's HiKu solar panels are their stock-standard offering.

Is Canadian Solar a vertically integrated company?

The company is partially vertically integrated, meaning they not only make solar panels (also called 'modules'), but also produce some of the raw silicon ingots, wafers, and solar cells that go into those panels. Here's a video of SolarReviews CEO Andy Sendy discussing his thoughts on Canadian Solar:

Are Canadian solar panels good?

Canadian Solar offers some excellent solar panels at very good prices. The company's products compare favorably on performance with other top brands, and they stand behind them with excellent warranties. Based on product quality and the company's longevity and stability, SolarReviews recommends Canadian Solar panels.

What is the difference between Canadian Solar and REC Solar?

Canadian Solar offers higher efficiency (up to 23%) and wattage (380W to 705W) panels at a lower average cost, but with shorter warranties on most models (12 years). REC Solar provides versatile, durable panels with a slightly lower maximum efficiency (22.6%) and wattage (up to 470W), but longer warranties (up to 25 years).

Who makes Canadian solar panels?

Canadian Solar is one of the world's largest manufacturers and installers of solar panels and operates on six continents. The company was founded in 2001 and manufactures its solar panels in Canada, China, Indonesia, Vietnam, and Brazil. Canadian Solar provides a range of options for home and business owners.

With so many stories of knock-off panels being sold under brand names in South Africa, I was wanting to know if there was a way to verify the authenticity of Canadian Solar Panels before actually purchasing them. I
