

Does Armenia use solar energy?

The Government of Armenia is promoting utilization of solar energy. In 2018 the amount of solar power produced in Armenia increased by nearly 50 per cent. Government figures show that Armenia's solar power average is 60 per cent better than the European average.

How much does solar power cost in Armenia?

It is Armenia's first large utility-scale and competitively-tendered solar independent power producer. The project will operate under a 20-year power purchase agreement and is expected to have a total cost of \$55 million.

What is Armenia's largest solar power plant?

The 200-megawatt plant named Ayg-1 will be Armenia's largest solar power plant with a capacity of around half of Armenia's main energy generator, the Metsamor nuclear power plant. The plant is planned to be built in the Aragatsotn province in an area of over 500 hectares located in Talin, Dashtadem, Katnaghbyur and Yeghnik communities.

Where is the biggest solar water heater in Armenia?

The biggest solar water-heater in Armenia is located at Diana hotel in Goris, which has 1900 vacuum tubes that provide hot water for a swimming pool with 180 cubic meter volume, and for 40 hotel rooms.

How will Masrik solar benefit Armenia?

Masrik Solar will help assure the reliability of Armenia's electricity supply by increasing the country's peak-load capacity at affordable tariffs, while also contributing to lowering the greenhouse gas emissions from the power system.

Where does Armenia get its energy from?

Lacking indigenous resources, Armenia imports natural gas and oil for most of its energy needs (78.6% of total energy supply in 2020), mainly from the Russian Federation (hereafter, "Russia").

Overview Potential Photovoltaics Thermal solar Obstacles See also External links Solar energy is widely available in Armenia due to its geographical position and is considered a developing industry. In 2022 less than 2% of Armenia's electricity was generated by solar power. The use of solar energy in Armenia is gradually increasing. In 2019, the European Union announced plans to assist Armenia towards developing its sol...
