

3 ???&#0183; Provitaz: Trusted Sungrow Service Partner in Azerbaijan since Fall 2023 Since the fall of 2023, Provitaz has proudly served as the official service partner for Sungrow, one of the world's leading inverter manufacturers, in Azerbaijan.

Solar inverters convert the direct current (DC) output of panels to the alternating current (AC) on which most residential and commercial appliances run. In short, the inverters work as the mediums between the solar panels and the residential and commercial buildings' electrical setup.

Solar energy is produced in the form of direct current (DC) through solar panels, and then inverters are used to convert this energy into alternating current (AC) for integration into the network. Concentrated Solar Power (CSP) uses mirrors to concentrate solar rays to generate electricity in large-scale power plants.

AIMS Power inverters are available up to 8000 watts throughout Azerbaijan in 12, 24 & 48 volt models for off-grid, mobile & emergency backup power applications. FREE SHIPPING (some products excluded)
