

Acwa Power has entered a binding implementation agreement (IA) with Uzbekistan's Ministry of Energy to develop up to two gigawatt hours (GWh) of standalone battery energy storage systems (BESS) capacity across the country.

Under the agreement, ACWA Power receives contractual priority for 2 GWh of new BESS capacity in Uzbekistan, allowing the company to offer competitive tariffs. The agreement is valid for two years and may be extended by mutual consent.

Uzbekistan has signed an agreement with ACWA Power for up to 2GWh of Battery Energy Storage System (BESS) projects, enhancing renewable energy development. The deal, signed at COP29, follows previous agreements for solar PV and storage, with a focus on sustainable energy.

This will be the first implementation of a Battery Energy Storage System (BESS) integrated with solar energy in Azerbaijan, APA-Economics reports. The agreement was signed by Dr. Taleh Ziyadov, Director-General of the Port of Baku and President and Executive Chairman of Tiza Green Energy, Dr. Norza Zakaria in the Blue Zone of the Azerbaijan ...

Image: Republic of Azerbaijan, Ministry of Energy. Power plant developer ACWA Power and the government of Azerbaijan have signed an agreement to potentially deploy a battery energy storage system (BESS) in the central Asian country.

ACWA Power is already a key contributor to Uzbekistan's renewable energy landscape, which is its second-largest market outside of Saudi Arabia. The future development of over 2GWh of BESS capacity projects further consolidates its position as a pioneer in energy storage in the region.

Saudi Arabian developer ACWA Power has signed a binding implementation agreement with the Ministry of Energy (MoE) of Uzbekistan to develop up to 2 GWh of standalone battery energy storage system (BESS) capacity across the country.
