

We built our first solar power plant with Bisol 12 years ago. At that time, it was the largest rooftop power plant in Pomurje and one of the largest in Slovenia. This year, we have enhanced our environmental responsibility with two new acquisitions.

Installing a PV solar system is an exciting opportunity to get energy from a free and natural energy source: our sun. But are you really getting the maximum power out of your PV installation? Shading is a common problem that is successfully solved by SolarEdge technology.

Due to its favourable geographical location, Slovenia has a great potential for increasing its proportion of solar energy used. In 2020, a total of 11,990 solar power plants with a total electrical capacity of 371.6 MW were installed.
