

Galp has entered into a partnership with North American company Powin to install an energy storage system, using large-scale batteries, in one of its photovoltaic plants, in Alcoutim, in the Algarve.

Portland, Ore. - Global energy storage platform provider Powin LLC and Galp, Portugal's leading integrated energy company, have partnered to install a utility-scale battery energy storage ...

In two state-of-the-art solar installations, Exide Group is powering its battery production and recycling facilities using advanced lead battery energy storage. With a combined capacity of 4.5 MWp between the two installations, located in Castanheira do Ribatejo and Azambuja in Portugal, Exide has reduced carbon emissions by an average of 20% ...

Global energy storage platform provider Powin LLC and Galp, Portugal's leading integrated energy company, have partnered to install a utility-scale battery energy storage system (BESS) at one of Galp's solar power plants near Alcoutim, a small village in the country's sunny southern region of the Algarve, where Galp operates several ...

Its storage capacity allows for the continuous supply of electricity to the metropolitan area of Porto for 24 hours. In March 2021, the first filling of the Daiv&#245;es reservoir was concluded. Its associated power station will have a ...

In two state-of-the-art solar installations, Exide Group is powering its battery production and recycling facilities using advanced lead battery energy storage. With a combined capacity of ...

Endesa Generaci&#243;n Portugal, part of Enel Group, has been award the connection rights to develop a renewable energy project combining solar, wind, green hydrogen and a 168.6MW battery energy storage system (BESS) ...

Promote the national strategy for a sustainable energy transition by encouraging the adoption of new disruptive energy storage technologies, and the promotion of new high-performance and sustainable solutions for the global market.

Global energy storage platform provider Powin LLC and Galp, Portugal's leading integrated energy company, have partnered to install a utility-scale battery energy storage system ...

Global energy storage supplier Powin LLC and Portuguese integrated energy company Galp have partnered to install a utility-scale battery energy storage system (BESS) in Algarve,...

Portland, Ore. - Global energy storage platform provider Powin LLC and Galp, Portugal's leading integrated energy company, have partnered to install a utility-scale battery energy storage system (BESS) at one of Galp's solar power ...

Its storage capacity allows for the continuous supply of electricity to the metropolitan area of Porto for 24 hours. In March 2021, the first filling of the Daiv&#245;es reservoir was concluded. Its associated power station will have a capacity of 118 MW thanks to the installation of three generator sets.

Endesa Generaci&#243;n Portugal, part of Enel Group, has been award the connection rights to develop a renewable energy project combining solar, wind, green hydrogen and a 168.6MW battery energy storage system ...

Portland, Ore. - Global energy storage platform provider Powin LLC and Galp, Portugal's leading integrated energy company, have partnered to install a utility-scale battery energy storage system (BESS) at one of Galp's solar power plants near Alcoutim, a small village in the country's sunny southern region of the Algarve, where Galp ...

A pilot project - Storage InovGrid - was launched by EDP and Siemens in January 2016, in which lithium-ion battery technology was implemented to supply electrical energy for &#201;vora University Campus. This lithium-ion battery technology is combined with a storage capacity of over 360 KWh until the end of the project's life cycle.
