

Which countries are joining the Bess consortium?

In addition, Barbados, Belize, Ghana, Nigeria, Malawi, Mauritania, Mozambique, and Togo are joining. The Global Leadership Council of the Global Energy Alliance for People and Planet made this announcement. By the end of 2025, the countries aim to achieve 5 GW of BESS through the consortium.

What is the Bess consortium?

The BESS Consortium is a multi-stakeholder partnership set up to ensure these BESS benefits transform energy systems across low- and middle-income countries (LMICs). The Consortium is on track to meet its target of securing 5 GW of BESS commitments by the end of 2024 and deploying these by the end of 2027.

How can a Bess consortium benefit low-income countries?

Renewable sources of energy with a combination of BESS are cheaper than fossil fuel power plants. As a multi-stakeholder partnership, the BESS consortium can bring the benefits of energy storage to low and middle-income countries.

Where is ADB implementing Bess projects?

ADB is implementing BESS projects across Asia and the Pacific, from small-scale projects in the Maldives, Philippines, and Pacific Islands, to large-scale projects in Cambodia, Thailand, and Mongolia.

Why is Bess a critical technology?

BESS is a critical technology to achieve that goal, but progress is being severely hindered by unfavorable policies and regulations, high financing costs, long project lead times, and other challenges.
