

The system is the largest in Bulgaria. Image: Renalfa IPP. A 25MW/55MWh battery energy storage system (BESS) has been commissioned in Bulgaria, Eastern Europe, by operator Renalfa IPP, using technology provided ...

The BESS technology was provided by energy storage-focused lithium-ion OEM and BESS firm Hithium and power solutions firm Kehua Tech, both based in China. Hithium won the contract back in November last year, as reported by Energy-Storage.news at the time.

Renalfa IPP claims the facility is the largest operating BESS system in Bulgaria and one of the first of such scale in Eastern Europe. The facility is being managed and optimised by KER Toki Power, a fully digital ...

Hithium has launched a 55 megawatt hours (MWh) battery energy storage system (BESS) project in Razlog, southwestern Bulgaria. The project, the largest in Eastern Europe, has been realised by Solarpro, a company specialising in energy generation and storage solutions across Europe.

The system is the largest in Bulgaria. Image: Renalfa IPP. A 25MW/55MWh battery energy storage system (BESS) has been commissioned in Bulgaria, Eastern Europe, by operator Renalfa IPP, using technology provided by Chinese firms Hithium and Kehua.

The BESS, connected to the transmission grid run by the Electricity System Operator, is the biggest in the country. It stores energy during the daily peak of photovoltaic output and arbitrage on the electricity market.

Kehua Tech is a world-leading provider of power electronics and energy solutions. With over 35 years of expertise, we deliver innovative UPS systems, data center infrastructure, and renewable energy solutions to customers in over 100 countries.

Renalfa IPP, a Vienna-based developer and independent power producer, on Monday said it has commenced commercial operation of a 25-MW/55-MWh battery energy storage system (BESS) in Bulgaria, marking the country's largest operating BESS to date.

Renalfa IPP claims the facility is the largest operating BESS system in Bulgaria and one of the first of such scale in Eastern Europe. The facility is being managed and optimised by KER Toki Power, a fully digital Bulgarian electricity trader.
