

Bonaire Sint Eustatius and Saba solar park project

Is Saba a solar Island?

The entire island of Saba is powered by solar energy from 2 solar parks and battery storage, that became fully operational in 2019. Saba is one of the Caribbean islands leading the way in renewable energy. Dutch company Ecorus facilitated the photovoltaic (PV) module, while SMA Sunbelt Energy GmbH was responsible for setting up the battery storage.

Are Bonaire and Sint-Eustatius honoured?

Late last week, the good news was received that the project proposals of Bonaire, Sint-Eustatius and Saba were honoured. They are the only islands in the Caribbean whose proposals made it through the selection.

Does Saba have solar power?

Saba is one of the Caribbean islands leading the way in renewable energy. Dutch company Ecorus facilitated the photovoltaic (PV) module, while SMA Sunbelt Energy GmbH was responsible for setting up the battery storage. When the weather is sunny enough the island can run on solar power for 8-10 hours, reducing the use of the diesel engines.

What makes SEC solar parks unique?

The key element of the solar parks is the Sunny Central Storage 2200 battery inverter with grid-forming characteristics, which allows the diesel generators in SEC's power plant to be completely shut down in automatic mode, without compromising the stability of the frequency in the grid.
