What can a solar generator be?

However, in these days of renewable energy, we're rethinking the idea of what a generator can be. Solar generators (a.k.a. portable power stations or portable power banks paired with a solar panel) seem to be everywhere now. It's no surprise: Solar generators are smaller, quieter, and more environmentally friendly than their predecessors.

How does a solar generator work?

A solar generator works by capturing solar energy with solar panels and storing it in a solar battery or portable power station. Jackery solar generators are a combination of solar panels and portable power stations that convert sun energy into electricity.

How do you clean a solar generator for camping?

Make sure to clean the solar panels to keep them efficient and remove all the dirt and debris at regular intervals. Inspect your solar panels and try to air-clean any ventilation ports to keep them free of debris. How big of a solar generator do I need for camping? The answer depends on what you plan to power.
