

Why does Canada import US electricity?

For instance, Canada imports US electricity when hydropower generation is low, such as during droughts. "The trade is important to grid balancing - constantly matching electricity consumption to electricity production -- and helping to shore up electricity supply," the EIA said in a recent report.

How much power did the US buy from Canada last year?

The United States bought roughly \$3.2 billion of power from Canada last year, down almost 30% from 2022. "Power transmission lines linking the United States and Canada are part of a complex and highly interconnected power system, with connections spanning New England to the Pacific Northwest," the EIA said.

Will Ontario cut off electricity exports to America?

While Ontario's premier has floated the idea of cutting off electricity exports to America, it's far from clear whether the major oil-producing provinces would be willing to do the same when it comes to the vital resource of oil. "Wake me up when the mayor of Calgary or the premier of Alberta starts popping off threats like this," said Yawger.

In Canada, Innovation, Science and Economic Development Canada (ISED) published a Consultation on the Technical and Policy Framework for Licence-Exempt Use in the 6 GHz Band in November 2020.. In May 2021, ISED published the Decision on Technical and Policy Framework for licence-Exempt Use in the 6GHz Band. This document outlines the new 6GHz ...

How are Amateur Radio operators "authorized" in Canada? Amateur Radio in Canada is regulated by a federal government department called Innovation, Science and Economic Development Canada (ISED; formerly Industry Canada). The first level of authorization is the Amateur Radio Operator Certificate with the Basic Qualification. Passing (70%) a multiple choice exam of 100 ...

Most 22 channel radios of this type which were formerly marketed as GMRS/FRS combination radios (radios that are not capable of repeater operation, do not include the repeater input frequencies, have a maximum power of 2 watts and have a non-detachable antenna) have been reclassified as FRS radios.

Availability of electrical power - while some transmitters have in the past been operated by diesel power and some low power microwave stations can operate on solar power, antenna installations are almost invariably connected to electrical power. If power must be brought into the site, the cost for the siting can climb dramatically.

60m Amateur Radio Band Channels | Opération sur 60 mètres (5 MHz) English | French. On July 28, 2022, our regulator - Innovation, Science and Economic Development Canada (ISED) - updated "RBR-4 - Standards for the Operation of Radio Stations in the Amateur Radio Service". This update gave Amateurs in

Canada two new bands: 472-479 kHz (630 metres) and 5351.5 ...

So in order to stay under the regulations, we need to lower the conducted power by the number of the antenna gain dB greater than 6 (in our case $9 - 6 = 3\text{dB}$). So the new conducted power would be: $30\text{dBm (1W)} - 3\text{dB} = 27\text{dBm (500mW)}$. If we use a conducted power of 500mW we will have the following e.i.r.p.: $27\text{dBm (500mW)} + 9\text{dBi} = 36\text{dBm (4W)}$. This ...

The firm developing the project, Radramo Power, was founded last August, and is co-owned by businessmen Radu Rusei, who holds a 45% stake, and Marius Felician Gherasim, with 40%. Germany's Max Boegl is set ...

Preface. Radio Standards Specification RSS-210, issue 11, Licence-Exempt Radio Apparatus: Category I Equipment, replaces RSS-210, issue 10, dated December 2019. The main changes are listed below: Added sections 6.1, 6.2 and 6.3 to clarify general requirements and references in section 6; Added section 7: Measurement method; Annex A Added section A.1.1 to introduce ...

From what we've gathered from checking Industry Canada's website, only 2 watts of power is allowed for GMRS radios in Canada, which is no different from FRS radios sold in the US (Bubble-Pack radios are now allowed in Canada). Unlike ...

Romanian energy developer Radramo Power has been awarded the development consent for the construction of the 393 MW wind farm located in the commune of Pestera in Constanta county, ...

When you change your postal address you must inform Industry Canada with in 30 days of your new postal address. The holder of an Amateur Radio Operator Certificate may install or operate radio apparatus at any location in Canada. Amateur radio operators must use only the minimum legal transmitter power necessary to communicate.

Radio Canada International (RCI) is the international broadcasting service of the Canadian Broadcasting Corporation (CBC). Prior to 1970, RCI was known as the CBC International Service ("CBC IS"). ... (or no) audio. With no audio (silence) the carrier power was reduced by 50 percent; a 250 kW transmitter put out a carrier of 125 kW during audio ...

Standards in the Licence-exempt Radio Apparatus Standards List, April 2020, meet the requirements of section 15 of the Radiocommunication Regulations (RR). The related amendment to the RR can be found in Part II of the Canada Gazette by looking up "Regulations Amending the Radiocommunication Regulations: SOR/2020-278.". Equipment certification requires the use of ...

q with Tom Power (previously known as Q with Jian Ghomeshi) is a Canadian arts magazine show produced by and airing on CBC Radio One, with syndication to public radio stations in the United States through Public Radio Exchange.
