

Where will caterpillar market the new microgrid solution?

Caterpillar expects to first market the new microgrid solution in the Asia Pacific, Africa, and Latin America regions, with the integrated PV solution, including Cat-branded solar panels, available for customers in that region in the second half of 2015.

Who makes Cat solar panels?

The package will feature Cat-branded solar panels manufactured by First Solar and will include a balance of system components. Caterpillar will exclusively sell and support the integrated solution featuring Cat-branded solar panels through its worldwide Cat dealer network, along with its current offerings of generator sets and energy storage.

What does caterpillar do?

Customers turn to Caterpillar to help them develop infrastructure, energy and natural resource assets. With 2014 sales and revenues of \$55.184 billion, Caterpillar is the world's leading manufacturer of construction and mining equipment, diesel and natural gas engines, industrial gas turbines and diesel-electric locomotives.

Who makes solar gas turbines?

Solar Turbines, founded in 1927, is a leading manufacturer and supplier of industrial gas turbine engines, compressors and mechanical drives, and a key player in the 1,590 to 31,900 horsepower segment of the global gas turbine market. Solar gas turbines produce low exhaust emissions that meet or exceed global emissions standards.

How do I connect with Caterpillar on social media?

To connect with us on social media, visit [caterpillar.com/social-media](http://caterpillar.com/social-media). First Solar is a leading global provider of comprehensive photovoltaic (PV) solar systems which use its advanced thin-film modules. The company's integrated power plant solutions deliver an economically attractive alternative to fossil-fuel electricity generation today.

Are cat photovoltaic solar modules a good choice?

Cat photovoltaic solar modules are low maintenance, easy to install, and tested beyond industry standards and generate more power than multi-crystalline silicon modules. And your Cat dealer is with you from delivery of your system to service, financing, parts, and more for the life of your equipment.

Caterpillar affirms large mining truck product line commitment through the energy transition. Caterpillar is reinforcing its commitment to deliver product design choices in alignment with customers' operational, sustainability and productivity goals that increase the value of a machine throughout its lifetime.

Caterpillar Inc. (NYSE: CAT) today announced that SunPower (NASDAQ: SPWR) now provides

high-efficiency SunPower® Performance Series (P-Series) solar panels under the Cat® brand. Offered as part of the Cat Hybrid Energy Solutions suite, the monocrystalline, shingled-cell Cat PVC395 MP solar panels are currently available through the ...

Cat® Microgrids provide cost effective power for on- and off-grid communities and commercial or industrial installations. By combining renewable energy, from our photovoltaic solar modules and advanced energy storage solutions, with traditional generation, from utilities or generator sets, we can develop an energy system specifically designed for your needs.

Solar is one of the fastest growing sources of energy. This clean power source is readily available, without emissions or the need for traditional fossil fuels. When incorporated into a hybrid microgrid, Cat advanced solar solutions help build ...

Derrick York is president of Solar Turbines, a wholly-owned subsidiary of Caterpillar, and senior vice president of Caterpillar Inc. Solar Turbines is a global leader in the design, manufacture and service of gas turbine systems and compressors for the oil and gas and power generation industries. Prior to this role, York served as senior vice ...

Caterpillar Inc. has acquired Enhanced Energy Group, Inc. operating as "CarbonPoint Solutions," a U.S.-based carbon capture technology company. ... pleased to join Caterpillar and look forward to rapid deployment of the Semi-Closed Cycle and carbon capture for Cat engines and Solar gas turbines," said Paul Dunn, president and founder of ...

Solar Turbines, founded in 1927, is a leading manufacturer and supplier of industrial gas turbine engines, compressors and mechanical drives, and a key player in the 1,590 to 31,900 horsepower segment of the global gas turbine market.
