The tax credit eligible tier may be Tier 1, 2, or 3, depending on the product category. CEE tiers are explained in more detail on this page. Relevant CEE specifications cited include the CEE Electric HVAC Specifications, CEE ...

The CEE Directory provides easy access to energy efficient residential and small commercial central air-conditioners and heat pump equipment, gas water heaters, furnaces and boilers certified through AHRI. The directory lists thousands of certified systems that qualify for CEE's residential and commercial HVAC and water heating initiatives.

“Working with CEE is like having an extra staff member on our team working hard for our interests. The high-quality reports, bid documents, and work to collect invoices and process rebates would be extremely difficult to replicate in house.”

Again, we can use offshore wind as an example. A national strategy for establishing offshore wind energy in

Norway was first mentioned in 2007, in Report to the Storting no. 34, 2006-2007: "Two important driving forces for a strengthened Norwegian effort on offshore wind turbines are a) a large potential for Norwegian production of renewable ...

As Norway moves into the next chapter of its energy history, renewable energy is becoming an increasingly important part of the landscape. Offshore wind, hydrogen, and solar energy are key areas of growth for the country, with major investments being made to expand capacity and develop new technologies.

Die CEE Group ist zu 100 % Teil der kanadischen Brookfield Asset Management Gruppe, die mit 240.000 Mitarbeitern in über 30 Ländern und rund USD 924 Mrd. verwaltetem Vermögen zu den führenden Asset Managern für Infrastruktur der Welt gehört.

Norway: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO<sub>2</sub> - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.
