

Given the growing needs of the African continent, this acquisition marks a strategic step for Taranis' Energy for Africa fund, and Taranis' ambition to become a major player in the sustainable energy transition, says Emmanuel Colombel, Chairman and CEO of Taranis

6 ???· In addition to these assets, Taranis gains a skilled team specializing in the development, operation and maintenance of solar, hybrid solar-storage and wind projects. "Through this transaction, we are delighted to give new impetus ...

6 ???· In addition to these assets, Taranis gains a skilled team specializing in the development, operation and maintenance of solar, hybrid solar-storage and wind projects. "Through this transaction, we are delighted to give new impetus to the portfolio of projects that the Akuo teams have developed in Africa," said Eric Scotto, Chairman of Akuo ...

This strategic acquisition will enable Taranis to strengthen the activities of its Energy for Africa fund, integrating Akuo's local portfolio of projects and the recognised expertise of its teams in the development of renewable energy in Africa.

Taranis Energy is a leading Canadian manufacturer of advanced lithium battery technology solutions. We specialize in designing and building high-performance lithium batteries. Our mission is to power the world's transition to sustainable energy by providing reliable, efficient, and affordable battery solutions.

The round was led by new investor Taranis Carbon Ventures with follow-on investment from Capricorn Partners, CM Venture Capital, ING Sustainable Investments and GC Ventures. Econic offers a patented process ...

The event, themed "China-Africa Collaboration to Modernize Energy Cooperation: Unlocking New Opportunities for Synergistic Partnerships," brought together over 70 delegates from China, Chad, Kenya ...

The round was led by new investor Taranis Carbon Ventures with follow-on investment from Capricorn Partners, CM Venture Capital, ING Sustainable Investments and GC Ventures. Econic offers a patented process based on a unique catalyst that replaces fossil-based feedstocks with renewable carbon.
