

Where do US solar equipment imports come from?

Since the imposition of the Obama-era tariffs, the share of US solar equipment imports directly from China has been almost completely phased out, with imports shifting to Southeast Asia. The recent DOC decision would expand these AD/CVD tariffs to cover imports from certain companies in Cambodia, Malaysia, Thailand, and Vietnam.

Which countries import the most solar panels?

Those countries -- Vietnam, Malaysia, Thailand, and Cambodia -- are responsible for nearly three-quarters of solar modules imported to the United States.

Does the US import solar panels?

The US imports most of its solar panels. A new ruling may make that more expensive. Workers install solar panels on a rooftop at AltaSea's research and development facility at the Port of Los Angeles on April 21, 2023.

Are Southeast Asian solar panels evading US trade rules?

The Department of Commerce has determined that solar panel manufacturers in four Southeast Asian countries are evading U.S. trade rules by using Chinese-sourced materials subject to tariffs without paying applicable duties.

Why are solar panels being built in Southeast Asia?

According to Bloomberg New Energy Finance, solar manufacturers are building over 35 GW per year of wafer-making capacity (wafers are fabricated into solar cells) in Southeast Asia to avoid tariffs. This added supply will likely push down prices, counteracting the effects of the tariffs.

Why are PV shipments growing in the US?

PV shipments to the US have been growing since President Joe Biden granted a two-year moratorium in June 2022 on antidumping and anticircumvention tariffs applied to crystalline-silicon solar cells and modules from Cambodia, Malaysia, Thailand and Vietnam.

According to Volza's Sri Lanka Import data, Sri Lanka imported 307 shipments of Solar Panel during Jan 2022 to Dec 2023 (TTM). These imports were supplied by 166 foreign exporters to 182 Sri Lanka buyers, marking a growth rate of -15% compared to the preceding twelve months. Within this period, in Dec 2023 alone, Sri Lanka imported 40 Solar Panel ...
