

Are Scientists preparing for the largest environmental clean-up of Antarctica?

Scientists are preparing for the largest ever Australian-led environmental clean-up of Antarctica.

Can We do better research stations in Antarctica?

Doing science in Antarctica has harmed an environment under great pressure. Here's how we can do better Research stations add to the problems that climate change is creating for iconic Antarctic species like emperor penguins. Zhang Zongtang/AP/AAP Russia's Bellingshausen Station was established in 1968. Shaun Brooks

Can We do better in Antarctica?

Doing science in Antarctica has harmed an environment under great pressure. Here's how we can do better The Argentine research station, Base Primavera, on the Antarctic Peninsula. Shaun Brooks Doing science in Antarctica has harmed an environment under great pressure. Here's how we can do better

How do wind turbines work in Antarctica?

"Wind turbines are drilled into the granite ridge beneath the snow and ice, removing the need for large concrete foundations. (Concrete will not set in the bitter cold of Antarctica) Their blades are maintained with carefully designed polar lubricants, but they can shut down production during intense storms.

A list of VC (Venture Capital) funds that invest in Cleantech startups based in Antarctica. We rank investors based on the number of investments they made in Cleantech companies from Antarctica. We update this investor list every month.

The report found that, like elsewhere in Australia, climate change is a key driver of change in Antarctica, the sub-Antarctic and the Southern Ocean. Pollution, tourism, commercial fishing, and an expanding human ...

Since 2006, CLEANTECH.SA, formerly EGPHIL Solar Solutions, has grown from small beginnings into a leading integrator of Energy Efficiency and Renewable Energy Solutions. In line with Saudi Arabia's 2030 Vision we aim to transform the conventional perception of energy consumption and generation to one that prioritizes sustainability. We have ...

When choosing which Antarctica destinations to visit, for the quintessential polar experience, venturing to the Antarctic Peninsula is the absolute place to start. The Antarctic Circle. The Antarctic Circle is found at 66 degrees south latitude, and is an intangible line that encircles the entire continent.

Ang Antarctica ay may mga sumusunod na katangian: Ang ibabaw ng kontinente ay mas malaki kaysa sa Oceania o Europa, at ito ang ikaapat na pinakamalaking kontinente sa mundo, na may kabuuang lawak na 14 milyong kilometro kuwadrado, kung saan 280.000 kilometro kuwadrado lamang ang walang yelo sa tag-araw at 17.968 km<sup>2</sup> sa baybayin.; Ang isang malaking grupo ...

Scientists are preparing for the largest ever Australian-led environmental clean-up of Antarctica. Over the coming years, field teams equipped with drones, steam-driven ice drills and field analytical equipment will be deployed to each of ...

CMG Clean Tech, listed as MLCMG on the Euronext Paris Exchanges, specialises in the renewable energy sector and is a global leader in developing clean hydrogen and solar technology to help countries, organisations and individuals alleviate their environmental impacts and meet ambitious 2050 carbon neutrality goals.

Parts of icy Antarctica are turning green with plant life at an alarming rate as the region is gripped by extreme heat events, according to new research, sparking concerns about the changing...

Les cleantech regroupent les technologies, produits et services qui visent une utilisation durable des ressources, qui permettent d'accélérer la transition énergétique et répondre aux défis liés aux changements climatiques. ... c/o CimArk SA Rue de l'Industrie 23 CH-1950 Sion +41 58 332 21 20 info@cleantech-alps .
