

Competitive landscape of photovoltaic tracking brackets

What is the competitive landscape of the solar tracker market?

The competitive landscape of this market depicts market dominance by major solar trackers manufacturers such as NEXTracker, PV Hardware, Array Technologies, and Soltec. NEXTracker has the maximum share in the global market, acquiring contracts from different countries in every region.

How big is the solar tracker market?

The Solar Tracker market in the U.S. is projected to grow significantly, reaching an estimated value of USD 9.58 billion by 2032, driven by federal and state policies, incentives, and regulatory support encouraging renewable energy adoption. North America dominated the solar tracker market with a market share of 56.85 % in 2023.

How will solar trackers impact the global market?

In North America, the U.S., with the maximum deployment of solar trackers for operational efficiency of the installed panels, will aid the demand for products across the region, resulting in North America holding the lead position in the global market during the forecast timeframe.

How is solar market segmented?

The market is segmented into utility and non-utility in terms of application. The utility segment is expected to lead the market due to rising solar grid integrations that have become common in many countries. The standalone systems and the rooftop solar installation are found to have fixed-tilt, eliminating trackers.

Which country dominated the solar tracker market in 2023?

North America dominated the solar tracker market with a market share of 56.85 % in 2023. A solar tracker is a system that positions an object at an angle relative to the sun.

What are the different types of solar tracking systems?

According to movement, solar tracking approaches two basic types, single axis and dual axis trackers. The most common are single-axis tracking systems. Trackers with a single axis tracking system follow the sun's trajectories by moving in one axis, most commonly in the east-west direction.

Solar Photovoltaic Bracket Market Insights. Solar Photovoltaic Bracket Market size was valued at USD 23.3 Billion in 2023 and is projected to reach USD 49.679 Billion by 2030, growing at a ...

Get an extensive Photovoltaic Tracking Bracket Analysis of the dominant vendors, their latest products and services, and the competitive landscape of the industry. This In-Depth Research ...

Photovoltaic (PV) Tracker Market Insights. According to Zion Market Research, the global Photovoltaic (PV)

Competitive landscape of photovoltaic tracking brackets

Tracker Market was worth USD 1.78 Billion in 2023. The market is forecast ...

4 ???· The new research "Photovoltaic Tracking Bracket Market" by End User (Commercial, Residential, Industrial), Types (Two-row Component Tracking, Single-row Component ...
