

What is Expro doing with Eni Congo?

Source: Exmar Annual General Meeting Presentation. Energy services provider Expro Group Holdings has announced a long-term production solutions contract with Eni Congo, a subsidiary of Italy's Eni, for an LNG pretreatment facility in the Republic of Congo. The 10-year contract is expected to generate more than \$300 million of revenue for Expro.

What is Eni Congo's LNG facility?

The facility is designed to allow incremental gas production for low carbon electricity generation. It will link to Eni Congo's offshore floating LNG (FLNG) operations, supporting both the local energy market and increased global demands for LNG to support secure energy supplies.

How much revenue will Expro generate in 2022?

As initially discussed on the company's third quarter earnings conference call on November 3, 2022, the 10-year contract is expected to generate more than \$300 million of revenue for Expro. Expro will design, construct, operate and maintain a fast-track onshore LNG pre-treatment facility (OPT), part of the Marine XII development offshore Congo.

What does Expro stand for?

HOUSTON - January 25 2023 Energy services provider, Expro Group Holdings N.V. (NYSE: XPRO) (the "Company" or "Expro"), has announced a long-term Production Solutions contract with Eni Congo S.A. a subsidiary of multinational energy company Eni S.p.A. ("Eni") for a liquified natural gas (LNG) pre-treatment facility in Congo.

How will a new LNG plant benefit Eni Congo?

The facility will be built near the Litchendjili gas plant, which supplies gas to the adjacent Centrale Electrique du Congo Pointe-Noire Power Plant and will enable the increase of LNG production from the West Africa area. The OPT facility, designed to process approximately 80 MMcf/D of gas, will link to Eni Congo's offshore floating LNG (FLNG).

What is the Congo LNG project?

(Credit: Eni) The Congo LNG Project is the first natural gas liquefaction (LNG) project in the Republic of the Congo. (Credit: Eni) The Congo LNG Project in the Republic of the Congo is the first natural gas liquefaction (LNG) project in the country.
