(Photo: Business Wire) This agreement highlights the shared commitment of ENGIE and Energy Dome to advancing long-duration energy storage solutions, marking a significant milestone in the commercial deployment of innovative clean technologies

What is energy dome?

Energy Dome solves the problem of long-duration energy storage with technology that is made with off-the-shelf components, it is scalable to your needs, with easy maintenance, and sustainable materials such as steel and CO2. It's the only solution that makes sense in the marketplace today to store renewable energy and start decarbonizing the world.

What is Engie & Energy Dome?

In Italy ENGIE has been pioneering the dispatching and the optimization of BESS (battery energy storage systems) since 2023; with an existing portfolio of 43 MW/48 MWh, the agreement with Energy Dome will consolidate ENGIE's know-how in storage optimization.

How can energy dome save the world?

Humbly speaking, there's only one way to start saving the world. Energy Dome solves the problem of long-duration energy storage with technology that is made with off-the-shelf components, it is scalable to your needs, with easy maintenance, and sustainable materials such as steel and CO2.

Why did Engie partner with energy dome?

Edouard Neviaski, CEO of ENGIE's business entity 'Global Energy Management & Sales', said: "ENGIE is thrilled to partner with Energy Dome on this groundbreaking energy storage project. This collaboration highlights our unwavering commitment to developing sustainable and flexible solutions that drive the energy transition.

Energy Dome's experienced project delivery team delivers to you everything you need to build your own plant down to the nuts and bolts. But to give you peace of mind, our supervisors help you ensure that construction maximum quality standards are met.

MILAN - April 27, 2023 - Energy Dome, the company behind the CO2 Battery(TM), the innovative long-duration energy storage solution, today announced it has closed a 40 million euro (circa \$44 million) Series B funding round. The financing round was led by Eni Next, the corporate venture capital arm of Eni. Eni Next invests in high-growth ...

Milan, May 13, 2024 - The European Investment Bank (EIB, a key provider of growth capital in Europe, has

announced Energy Dome as one of the Innovation Champion awardees at the EIB AdVenture Debt Summit in Luxemburg. ...

About Energy Dome . Energy Dome is revolutionizing energy storage and enabling grid decarbonization by making solar and wind power dispatchable 24/7. The company invented and developed the CO2 Battery, a long-duration energy storage system that makes long-duration energy storage viable globally today. The properties of carbon dioxide allow the ...

Long-duration energy storage innovator solidifies industry partnerships as it expands its global footprint . MILAN - July 20, 2023 - Energy Dome, the company behind the CO2 Battery(TM), the innovative long-duration energy storage solution, today announced the close of its second tranche of Series B funding, bringing the overall round to a total of EUR 55 million ...

MILAN - September 22, 2023 - A groundbreaking development in sustainable energy storage is on the horizon for Columbia County, Wisconsin, U.S., spearheaded by Alliant Energy in collaboration with Energy Dome and other key stakeholders. Alliant Energy has just announced its selection to receive a federal grant of up to approximately \$30 million from the [...]

Energy Dome is an energy storage solution provider that is unlocking renewable energy by making solar and wind power dispatchable using the CO2 Battery. Led by a team with a track record of innovation in the energy sector, Energy Dome's low-cost energy storage technology helps accelerate the global transition to renewable energy by enabling ...

The Innovative Long-Duration Energy Storage Solution Provider Gets (Yet Another) Prestigious Award Milan - January 23, 2024 - Cleantech Group, a leading authority on sustainable innovation, has announced Energy Dome as the Company of the Year for Europe & Israel in the prestigious 2024 Global Cleantech 100 awards. This recognition celebrates Energy ...

DUBAI - 1 December 2023 - Today, at COP28, Energy Dome has announced funding commitments for its first CO2-based and innovative thermo-mechanical energy storage system to be located in Sardinia, Italy. Funding will be in the form of a project-level grant commitment of up to EUR35,000,000 from Breakthrough Energy Catalyst and EUR25,000,000 Venture Debt financing [...]

It brings Energy Dome's total fundraising to nearly EUR100million to-date, following EUR17.5 million of grant and equity from the European Innovation Council in January plus money raised across earlier rounds prior to 2023. Its tech is based on a thermodynamic cycle, which charges by drawing carbon dioxide from a "Dome" gasholder, storing ...

Dome Energy Legyen szó akár ingatlan tulajdonosáról, vagyonkezelérol, bérlojérol vagy használójáról, egyre nagyobb és növekvé feladatot jelent a folyamatosan összetettebbé és bonyolultabbá váló energetikai kérdések követése, jogszabályok ál tal meghatározott kötelezettségek teljesítése kis- és középvállalkozások, illetve nagyvállalatok számára egyaránt.

The company's technology uses a thermodynamic cycle to store and dispatch energy with a 4-24 hour duration. It "charges" by drawing carbon dioxide from a large atmospheric gasholder (the Dome) and storing it under pressure at an ambient temperature, and dispatches by evaporating and expanding the gas into a turbine to generate electricity and return it back to ...

Energy Dome's experienced project delivery team delivers to you everything you need to build your own plant down to the nuts and bolts. But to give you peace of mind, our supervisors help you ensure that construction maximum quality ...

Provider of long-duration energy storage completes convertible funding round co-led by CDP Venture Capital Sgr and Barclays and joined by Novum Capital Partners, ahead of planned Series B round. MILAN (June 28, 2022) - Energy Dome, a leading provider of utility-scale long-duration energy storage solutions, today announced the successful closing of an \$11 ...

1 ??· Under the agreement, Energy Dome will own and operate the facility, while Engie will optimise and dispatch the stored energy in the Italian power markets. As an emerging climate ...
