

The solar battery that pays for itself! Pixii Home enables homeowners to get more out of solar energy, cut electricity bills with smart energy saving functionality, and generate income by renting out battery capacity to support the local grid through ancillary services like FFR, FCR and FCAS, bringing energy independence within reach. ...

Making waves - Bondi Beach powers ahead with Pixii's community battery. CASE: DSO/DNSP. From grid strain to energy gain - How ENGIE is powering Slovakia's clean energy with Pixii. CASE: COMMERCIAL AND INDUSTRIAL. Leading the charge - How Greenbat and Pixii revolutionized energy storage in Slovakia.

Background. Greenbat is a Slovakian company that specializes in innovative energy storage solutions, focusing on the design, implementation, and operation of battery energy storage systems (BESS). With a mission to enhance grid flexibility and integrate renewable energy sources, Greenbat has achieved a significant milestone by pioneering the first battery ...

\*The financial compensation for the income-generating battery services varies in different regions. Saving services are also subject to local tariffs that will affect the ROI in combination with cost for installing PV. Contact your local Pixii sales representative to build your own business case with Pixii value stacking. Our figures are based ...

The Pixii battery energy storage system is designed to be managed and controlled remotely. The built-in communication gateway, allows you to connect with all elements within the system, as well as external sensors and other hardware at your site.. And with the Pixii Gateway web-app, you can configure a wide range of services, monitor and optimize

The Pixii battery energy storage system is fully integrated, enabling businesses to get the most out of their new or existing solar panels. It allows for fast charging, and with smart functionality like time shift and peak shaving, businesses can store energy during off-peak hours to reduce costs and manage energy demand.

Pixii Academy is our online training platform designed to help you master the latest in Pixii's modular Battery Energy Storage System technologies and industry best practices. Whether you are new to the field or an experienced professional, Pixii Academy offers training to enhance your expertise. [Read more](#)

Optimize your energy consumption and reduce cost, with our compact battery energy storage solution with smart home functionality. Pixii Home family. PowerShaper - Residential. Pixii Home. Bulding blocks. PixiiBox. Batteries. Related markets. ... Pixii AS is committed to protecting and respecting your privacy, and we'll only use your ...

It's bi-directional power architecture enables energy to flow in both directions, from grid to battery and battery to grid, making it compact, reliable, and cost effective. It connects with a wide range of energy sources, like solar, grid, generator and more, giving you unrivalled flexibility. ... Pixii AS is committed to protecting and ...

Making waves - Bondi Beach powers ahead with Pixii's community battery. All case studies One core module, many products. Our modular building block called the PixiiBox is the core component in all our systems. PixiiBox opens the door for both energy saving services and income generating services through the concept of value stacking.

The "Battery In the Grid" (B.I.G) model is transforming how DSO's build and maintain infrastructure and turning batteries into an exciting investment tool. Electricity grids are at a tipping point. The swift pace of ...

With the aim of harnessing solar energy at their Gardemoen warehouse and limiting peak power consumption, all while reducing energy costs and CO 2 emissions, Coop embarked on a pilot project to trial Pixii's battery ...

The partnership aims to enhance grid flexibility and support increased demand at busy charging stations by integrating Pixii's battery systems with EV chargers. This initiative will reduce grid dependency and operational ...

The Pixii PowerShaper is a modular battery energy storage system that optimizes energy use, helping you avoid costly grid upgrades. It comes with smart functionality like time shift and peak shaving to reduce your energy cost by storing power during low-demand periods. It integrates seamlessly with solar systems for PV self-consumption and ...

Pixii's compact BESS is fully integrated, enabling you to get the most out of new or existing solar installations, maximizing self-consumption. ... Making waves - Bondi Beach powers ahead with Pixii's community battery. CASE: DSO/DNSP. From grid strain to energy gain - How ENGIE is powering Slovakia's clean energy with Pixii.

The Pixii Gateway is a built-in powerful controller, enabling you to connect with, monitor, and control all components within the system, as well as external sensors and other hardware at your site. ... Pixii Gateway provides full control over your Pixii Battery Energy Storage System (BESS). Whether you want to use it for peak shaving, PV self ...
