

The so-called RD 100% Renewable Coalition, made up of cooperatives, companies, and entities linked to the environment, announced yesterday a plan for installing solar panels in 180,000 homes and small businesses throughout the country to generate 600 megawatts of electricity in three years.

It seems solar installation is really not beneficial to residentials or small businesses, unless you are completely off the grid. Here too many stories from small businesses that they have a hard time getting paid back from the utility.

A solar energy installation allows you to save up to 90% of your average energy bill. 2 Few Requirements. The only requirement for solar energy is space on a sunny roof and energy demand (consumption). 3 3 year investment payback. The high solar production makes the investment to be payed back in less than 3 years. 4 Long term profitability

The so-called RD 100% Renewable Coalition, made up of cooperatives, companies, and entities linked to the environment, announced yesterday a plan for installing solar panels in 180,000 homes and small ...

In an attempt to be more self sufficient and rely as little as possible on public services, I am thinking of installing solar panels. Upon speaking about this with my builder he informs me that in order for solar panels to work in DR the electricity must be 24-7 and that it is a requirement by the power company but that he would do more ...

Maximise annual solar PV output in Santo Domingo, Dominican Republic, by tilting solar panels 17degrees South. The location at Santo Domingo, Dominican Republic is an excellent place for generating energy through...

Installing Solar Panel Systems in The Dominican Republic: In this video we visit homeowners Robert and Kathleen who recently took the plunge. With the ever increasing cost of power and the quality and durability of solar equipment seemly advancing with each passing day, for anyone with the funds, it's certainly worth doing some research and ...
