

Will a data centre in Argentina be a big investment in 2025?

Reidel said tech groups were analysing data centre projects in Argentina and would announce investments "hopefully in 2025 . . . it's a question of where, not if". Those projects could develop before new nuclear plants come online, using energy from Patagonia's rapidly growing shale gas production, he added.

Could a Chinese nuclear project end in Argentina?

Roula Khalaf, Editor of the FT, selects her favourite stories in this weekly newsletter. Argentina will turn to a US investor and small modular reactor technology to expand its nuclear energy sector, a top adviser to President Javier Milei has said, potentially spelling the end for a Chinese project on the same site.

Are foreign investors waiting for Milei to lift Argentina's capital controls?

Many foreign investors say privately they are waiting for Milei to lift Argentina's capital controls, and to see if his libertarian coalition does well at midterm elections in 2025, before investing. But an incentive scheme for big investments had drawn commitments of about \$7.8bn in energy and mining projects this year, according to JPMorgan.

What challenges will Argentina face?

"The challenge will be overcoming investors' lack of trust in Argentina and non-energy infrastructure challenges, like our limited broadband network, which will cost money," Gadano added.

Download the Press Release (PDF) Paris, September 20, 2024 - TotalEnergies announces the start of production from the Fenix gas field, located 60 km off the coast of Tierra del Fuego in Southern Argentina..
