#### Will Ivory Coast get a 52 MW solar plant?

The Ivory Coast government has signed an agreement with infrastructure investor PFO Africafor the financing, construction and operation of a 52 MW solar plant. The project has been billed as the country's largest to date.

#### When will Ivory Coast's solar power plants be built?

The minister said that contracts are currently under review for the construction of other solar power plants, with a cumulative capacity of 600 MW. Commissioning of these projects will take place in 2025 and 2026. Coulibaly said the Ivory Coast's installed solar capacity currently stands at 2,907 MW.

#### How much energy does the Ivory Coast have?

It currently has a capacity of 37.5 MW, but Coulibaly says this is set to expand to 80 MW, with financing for the expansion already approved by the Council of Ministers. The Ivory Coast has vowed to reduce its greenhouse gas emissions by 32% and increase the share of renewable energy in its energy mix to more than 40% by 2030.

#### Who financed the Ivory Coast solar power station?

The 75.6-million-euro (\$82.1-million) cost of building the solar power station was financed by Ivory Coast, a German loan and a European Union grant. "This is the result of the EU's long-standing commitment to the renewable energy sector,with almost 140 million euros since 2017," EU ambassador to Ivory Coast Francesca Di Mauro told AFP.

### Does Ivory Coast need fossil fuels?

By 2030, Ivory Coast has pledged to increase its share of renewable energy to 45 percent, including nine percent solar, and to reduce its greenhouse gas emissions by 30 percent. Fossil fuels however still play a key role. The West African nation recently discovered two huge oil and natural gas deposits.

### What is the largest solar project in Africa?

The project has been billed as the country's largest to date. The government of the Ivory Coast has signed a concession agreement with infrastructure investor PFO Africa for a 52 MW solar PV plant in the village of Sokhoro, in the northern part of the West African country.

The overhead costs for solar panel production in Ivory Coast typically range from 20% to 25% of the total production cost. 18 19 20 Labor costs: Data on labor costs specific to machinery operation, panel assembly, and quality control in Ivory Coast is currently unavailable. However, the general labor market in Ivory Coast exhibits a salary range of \$206.89 per month (minimum) to ...
