

What are the risk factors affecting Equatorial Guinea's oil and gas industry?

In addition, there are risk factors such as the Russian-Ukraine war, China-U.S. tensions and a global recession which we are closely looking at and wanting to avoid their negative impacts on the global oil market.

What are the most important developments for Equatorial Guinea's oil and gas industry in the last 12 months?

Will Equatorial Guinea reinvest oil revenue into agriculture?

Although pre-independence Equatorial Guinea counted on cocoa production for hard currency earnings, the neglect of the rural economy in the years of oil bonanza has diminished potential for agriculture-led growth. However, the government has stated its intention to reinvest some oil revenue into agriculture.

How much oil does Equatorial Guinea produce per day?

As of 2013, Equatorial Guinea's proven oil reserves were put at 1.1 billion barrels (204×106 m3); oil production was estimated at 420,000 barrels per day(67,000 m3/d) in 2005 and 316,000 barrels/d in 2012, of which crude oil accounted for over 90%3.

With over 1.1 billion barrels of oil reserves and 1.5 trillion cubic feet of natural gas, the small but formidable nation of Equatorial Guinea is ambitious in its plans to position itself as a leading African hydrocarbon hub.

The research in this report endorses the soundness of the business case for offerings that integrate clean energy technologies acting as a one-stop-shop for consumers. It analyses the existing ESCOs in Africa and their services to understand what is needed for the energy services to become integrated.

How has Equatorial Guinea's energy sector become a more attractive destination for foreign investment? It is simple, the hydrocarbons sector contributes 90 percent of Equatorial Guinea's GDP and with that in mind, to ...

Since 1995, when significant off shore oil discoveries were made in the Gulf of Guinea, oil has become Equatorial Guinea's most important export. Today, about 75% of export revenues come from crude petroleum exports and 22% from liquefied hydrocarbons. The oil and gas industry accounts of 95% of the Gross Domestic Product. Due

Sustainable Energy for All: Promoting Small Scale Hydropower in Bioko and Other Clean Energy Solutions for Remote Islands To create a market for decentralized renewable energy solutions ...

Petrofac, a leading provider of services to the global energy industry, has today been awarded a Technical Services Contract by Compañía Nacional de Petróleos de Guinea Ecuatorial (GEPetrol), the National Oil ...

Sustainable Energy for All: Promoting Small Scale Hydropower in Bioko and Other Clean Energy Solutions for Remote Islands To create a market for decentralized renewable energy solutions in small island and remote territories

Mission Accomplished: Transforming Equatorial Guinea's Energy Landscape with Cutting-Edge 3D Engineering Solutions Proud to announce the successful reengineering of two onshore sites for Total Energies in Malabo and Ekuku.

How has Equatorial Guinea's energy sector become a more attractive destination for foreign investment? It is simple, the hydrocarbons sector contributes 90 percent of Equatorial Guinea's GDP and with that in mind, to drive economic growth, we have focused on creating an enabling environment for industry players.

Mission Accomplished: Transforming Equatorial Guinea's Energy Landscape with Cutting-Edge 3D Engineering Solutions Proud to announce the successful reengineering of two onshore ...

Petrofac, a leading provider of services to the global energy industry, has today been awarded a Technical Services Contract by Compañía Nacional de Petróleos de Guinea Ecuatorial (GEPetrol), the National Oil Company of Equatorial Guinea, to support the operation of the region's Block B asset.

An Energy Services Company (ESCO) is a specialized firm that provides a broad range of EE services, mostly under an Energy Performance Contracting (EPC) approach, a guaranteed savings scheme that repays the energy efficiency ...

Since 1995, when significant off shore oil discoveries were made in the Gulf of Guinea, oil has become Equatorial Guinea's most important export. Today, about 75% of export revenues ...

Equatorial Guinea: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across all of the key metrics on this topic.

Energy Service Companies (ESCOs) provide a promising opportunity to achieve greenhouse gas emissions reductions through increased energy efficiency, particularly in developing countries ...

Energy Service Companies (ESCOs) provide a promising opportunity to achieve greenhouse gas emissions reductions through increased energy efficiency, particularly in developing countries where the potential gains are often high.
