How does ESS work?

ESS works by using its network to mobilize the local and international experts required for the job. Whenever possible, ESS involves local students in the implementation of its projects, giving them the chance to acquire knowledge and skills. At present, the geographical focus of ESS is Suriname and the Guianas in general.

Suriname in 2005. For public and private sector clients, we (ESS) implement multidisciplinary projects that require "green" as well as "grey" environmental expertise. We combine expertise that is available in Suriname and globally, and we put it to work.
