

What happened to Evergreen Solar?

Evergreen Solar, Inc. was "a fully integrated manufacturer of solar panels producing wafers, cells and panels." On August 15, 2011, the company filed for Chapter 11 reorganization with the intent of selling its assets. Evergreen Solar was founded in 1994 and until bankruptcy traded on the NASDAQ exchange.

What is the solar energy industry like in France?

In France, the solar energy industry has seen significant growth, recognized as a key player in the transition to sustainable energy. The sector's diversity is remarkable, with companies ranging from producers of solar panels to those offering innovative solutions like solar pergolas.

How many megawatts does evergreen produce a year?

Evergreen's factory in Devens, MA opened in mid-2008 and expected to be producing at a rate of 80 megawatts per year by early 2009. A second phase was scheduled to begin ramping in early 2009 to produce an additional 80 megawatts per year. CEO Richard Feldt had said the company was eyeing expansion in Asia as well.

Who are France's top solar companies?

Get Started Today! Exploring France's flourishing solar energy market, this article lists the top 19 companies. Companies include Edf Enr, a premier provider of photovoltaic solar panels, and electronic equipment manufacturing leader, Photowatt.

Is evergreen going out of business?

The company announced plans to close its main American factory and lay off the 800 workers there by March 2011. Evergreen is shifting production to China where it has a joint venture. The company received \$21 million from Massachusetts, covering part of the cost of the Devens factory.

Did evergreen buy Sovello?

In 2006 Evergreen, Q-Cells and Renewable Energy Corporation (REC) formed EverQ (later renamed Sovello), a joint venture to open a factory in Thalheim, Germany which was expected to produce 300 MW of photovoltaic modules by 2010. Sovello intended to make a public stock offering, but instead was acquired by Ventizz Capital Partners.

At Evergreen Solar Solutions, we know you want to have the freedom to live comfortably in your own home. In order to do that, you need a stable (yet sensible) energy bill. The problem is you are continually overpaying for your energy which makes you dread your next monthly bill while feeling irritated and ripped off in the meantime.
