

The Republic of the Marshall Islands (RMI) is situated nearly midway between Hawaii and the Philippines, and is the easternmost island group in Micronesia. The country consists of two parallel chains of atolls and islands in the central ...

Majuro - The United States Government is pleased to announce that solar lights and equipment have now arrived in the Marshall Islands to be installed on Namor Atoll and will provide street and residential lighting for Namor Atoll communities. ...

The Marshall Islands government is injecting \$10 million to the Marshalls Energy Company this fiscal year, with a planned additional \$7 million next fiscal year. The purpose of the funding is to support MEC's need to purchase new engines for the power plant, according to Finance Minister David Paul. "These are necessary investments for MEC

The Republic of the Marshall Islands (RMI) is home to some of the most remote atolls in the North Pacific, if not the world. Characterized by their low elevation and unique composition, the three Island-Ocean Connection Challenge (IOCC) projects located in RMI--Jemo, Bikar, and Bokak--offer key opportunities to demonstrate what low-lying coral ...

The Republic of the Marshall Islands (RMI) is home to some of the most remote atolls in the North Pacific, if not the world. Characterized by their low elevation and unique composition, the three Island-Ocean Connection ...

Influence and contact with different groups of European explorers brought huge changes to the once-simple life of people in the Marshall Islands. These changes could have flushed the islanders' traditions and beliefs into oblivion if not for the stories and legends written to help preserve the Pacific nation's culture. The Marshall Islands is a sprawling chain of 29 ...

The Asian Development Bank and the RMI government signed off last week on the bank's largest-ever grant to the Marshall Islands. The \$52.5 million grant will be focused on fresh water, sanitation and solid waste management improvements on both Majuro and Ebeye.

After almost four decades under US administration as the easternmost part of the UN Trust Territory of the Pacific Islands, the Marshall Islands attained independence in 1986 under a Compact of Free Association. Kwajalein hosts one of four dedicated ground antennas that assist in the operation of the Global Positioning System (GPS) navigation ...

The Marshall Islands are typically consistent throughout the year; however, as is the case with every other surfing destination, certain seasons or times of year are better suited to particular surfing skill levels. While the Marshall Islands would not typically be described as a beginner-friendly surfing destination, there are undoubtedly ...

The Marshall Islands Program was established in 1977 by the Energy Research and Development Administration, the predecessor Agency to the Department of Energy (DOE). The program is the U.S. response to the legacy of nuclear testing that occurred in the Republic of the Marshall Islands from 1946 to 1958.

History in the Marshall Islands trends toward the dark and sobering, but that's no excuse to ignore it. During World War II, when the country served as a Japanese base, Allied forces bombed the outer islands for 75 straight days. When the war ended and the islands were ceded to U.S. control, nuclear testing began. From 1946 to 1958, the ...

The renewable energy scheme will involve the installation of solar panels, battery storage capacity and grid management options in Majuro, the islands' capital city. According to the statement, the World Bank will also ...
