

The new Peruvian energy company projects an investment of US\$ 1,000 million in the next 5 years to build more than 800 megawatts (MW) of renewable projects. Orygen, the new Peruvian energy company, will assume the portfolio acquired by the global investment fund Actis, after the recent purchase of Enel Generación Perú.

PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModuleTech conference dedicated to the U.S. utility scale solar sector.

The International Finance Corporation (IFC) selected Tractebel's Renewable Energy experts to participate in the early stages of developing India's first hybrid energy power plant. In a paradigm shift away from standalone wind ...

The focus will be on diverse renewable technologies, including solar, wind, hybrid and storage solutions. The partnership will concentrate on large-scale and central grid-connected renewable energy projects. Ampin Energy Transition founder, managing director and chief executive Pinaki Bhattacharyya stated: "We are happy by the continued ...

This inventory describes the current state of renewable energy use in the territories, outlines actions being taken and ... A typical coal powered power station in southern Canada has a generation capacity of around 600-700 MW of electricity. ... All current and planned short-term hydroelectric projects for each territory.

French energy minister Ségolène Royal has signed a decree establishing an energy programme (PPE) for French Guiana, that aims to use solar, biomass and hydro to reach 85% renewables generation ...

Tata Power has entered a memorandum of understanding (MoU) with Druk Green Power (DGPC) to develop at least 5GW of clean energy generation capacity in Bhutan.. The proposed 5GW capacity includes 4.5GW of hydropower, and features projects such as the 1.1GW Dorjilung HEP [hydroelectric power], the 740MW Gongri reservoir, the 1.8GW Jeri ...

A pair of oil and gas giants, Algerian state-run company Sonatrach and Italy-based firm Eni, have inaugurated a 10MW solar PV project to power an oil field in Bir Rebaa North (BRN) in Algeria.

The overarching objective of the bill is to remove barriers to the development of renewable energy projects by improving administrative processes and expanding access to project sites. The bill ...

This project will help generate renewable energy for The Brando resort, located on the island. Wiebke

Kr&#252;ger, project manager at SMA Sunbelt Energy GmbH, said: "The Brando resort already had a ...

Axpo has secured a combined capacity of 163MW in recent public tenders for solar and wind energy organised by the French Energy Regulatory Commission (CRE), the results of which were announced in November 2024. The projects are expected to contribute significantly to local renewable energy supply and align with France's ambitious energy targets.

Asia-Pacific renewable energy developer and independent power producer (IPP) Vena Energy is planning a project that would combine up to 2GW of solar PV generation capacity with as much as 8GWh of ...

Three Offshore Wind and 22 Land-Based Renewable Energy Projects Totaling 6.4 Gigawatts Will Power 2.6 Million New York Homes and Deliver 12% of New York's Electricity Needs in 2030 ... Southern Tier. Clear View Solar: VC Renewables, LLC will build a 19.99-megawatt Solar facility in the Town of Cohocton, Steuben County. ...

Recurrent Energy, the renewable energy developer arm of solar manufacturer Canadian Solar, has reached financial close on a 171MW solar-plus-storage project in Victoria, Australia.

The Gudalur Hybrid Project will be operational in Q4 2023. Image: Vena Energy. Renewable energy company Vena Energy has reached financial close on a 176MW solar and wind project in India.

EDPR expects the hybrid solar project to be in operation for 25 years and is the fourth-largest PV farm in Poland by capacity. The news comes as Poland looks to shift its energy mix in the coming ...
