

What is Freudenberg E-Power Systems?

Freudenberg e-Power Systems helps customers with everything from application development to production, startups and services. Strong solutions especially come from strong partnerships. That proved to be true for Freudenberg's recently concluded contract with battery manufacturer LG Energy Solution.

Why did Freudenberg partner with LG Energy Solution?

"The partnership with LG Energy Solution enhances our leading battery offering for the bus and truck market," explains Dr. Max Kley, CEO of Freudenberg e-Power Systems. "Together we are able to offer our customers an unparalleled range of solutions specifically tailored to the demanding requirements of this market."

Does Freudenberg own XALT Energy?

Freudenberg has acquired the outstanding shares of the joint venture, XALT Energy, which has become part of Freudenberg e-Power Systems. The business unit develops and produces battery cells as well as fully integrated battery packs for the commercial vehicle and shipping industries.

Does Freudenberg E-Power Systems' new business unit pay off?

The new business unit Freudenberg e-Power Systems (FEPS) has been bundling the company's battery and fuel cell business into one organization since last year. The latest developments show why the move has paid off.

Why is Freudenberg expanding its capacity?

With a total capacity of 19 GWh, Freudenberg is expanding its capacities to meet rising demand and ensure the best possible supply for its customers in commercial vehicle applications, such as trucks and buses in North America and Europe.

How is Yemen dealing with energy problems?

Yemen is dealing with the dilemma of energy networks that are unstable and indefensible. Due to the fighting, certain energy systems have been completely damaged, while others have been partially devastated, resulting in a drop in generation capacity and even fuel delivery challenges from power generation plants.

Stay updated with the latest developments at Freudenberg e-Power Systems. Explore news articles, upcoming events, and a gallery of images. ... Freudenberg e-Power Systems launches the new XRANGE Battery Pack for Buses and Trucks Mar 17, 2023 Joint Collaboration Propels Maritime Energy Technology Advancements Feb 02, 2023 ...

The XRANGE™ battery pack is specially designed to power medium and heavy-duty transportation

applications that require long range, high payloads, and high uptimes, such as trucks, buses, and delivery vehicles. Our easy-to-integrate philosophy and the modularity of our packs make the XRANGE™ ideal for use in a wide variety of vehicle architectures, simplifying ...

The battery cell modules will be assembled at Freudenberg e-Power Systems' XALT gigafactory in Midland, Michigan, USA. With the recent acquisition of XALT by Freudenberg e-Power Systems, the company is investing a further double-digit million sum in the expansion of its battery business and its capacities.

The battery cell modules will be assembled at Freudenberg e-Power Systems' XALT gigafactory in Midland, Michigan, USA. With the recent acquisition of XALT by Freudenberg e-Power Systems, the company is ...

Freudenberg Battery Power Systems, LLC, focuses on the development, production, assembly, and service of battery systems for heavy duty applications in the truck and bus, marine and mining industries, among others.

Since cathode material is the single largest contributor to a lithium-ion battery cell's carbon footprint, Ascend Elements' low-carbon cathode material will impact Freudenberg e-Power Systems' batteries. The shipment of pCAM material was engineered and manufactured at the Ascend Elements pilot facility in Westborough, Massachusetts.

Trucks, buses, ships - when large loads or many people are set in motion, we are in our element at Freudenberg e-Power Systems. As one of the leading suppliers of emission-neutral energy systems for heavy-duty applications, we offer our customers long-standing expertise and unbeatable know-how. ... You will directly act as interface with the ...

Freudenberg continues to advance the development of complete electric battery, fuel cell and hybrid systems for heavy-duty and commercial vehicles. Thanks to targeted development activities, the technology group expanded its market position in 2020, and is playing a pioneering role in electrified drivetrain systems for trucks, buses, ships, and ...

Freudenberg e-Power Systems design, entwickelt und fertigt leistungsstarke Batterie- und Brennstoffzellensysteme mit langer Lebensdauer und setzt damit neue Maßstäbe in der Elektromobilität. Unsere Antriebssysteme werden speziell für Busse, Lkw, Schifffahrt und Off-Road-Transporte entwickelt, um unseren Kunden die optimale Lösung für ...

The Freudenberg Group has been inventing components for batteries and fuel cells since the early 1990s. With the successful acquisition of XALT Energy LLC, a battery specialist in the US, and assets from Elcore, a Munich-based fuel cell system company, Freudenberg established a business unit to focus on developing and manufacturing complete battery and fuel cell systems.

A total commitment to customer satisfaction and continuous improvement must be shared by Freudenberg

e-Power Systems and its suppliers. Together, we want to maintain effective quality management systems and an attitude towards prevention versus detection to improve product quality.

Freudenberg e-Power Systems is a leading global supplier of emission-neutral energy systems for heavy-duty applications. With its expertise in battery and fuel cell technology, the company offers customized and, in particular, combined solutions for sustainable and cost-efficient e-mobility.

Freudenberg e-Power Systems and LG Energy Solution (LGES; KRX: 373220) have signed a multi-year contract for the supply of lithium-ion battery cell modules. With a total capacity of 19 GWh, Freudenberg is ...

Freudenberg treibt die Entwicklung kompletter elektrischer Batterie-, Brennstoffzellen- und Hybridsysteme für Schwerlast- und Nutzfahrzeuge weiter voran. Dank gezielter Entwicklungsschritte hat der Technologiekonzern seine Position im Markt auch 2020 ausgebaut und nimmt bei elektrifizierten Antriebssystemen für Lkw, Busse, Schiffe und Züge ...

Freudenberg e-Power Systems battery technology focuses on the development, production, assembly, and field service of complete battery systems for applications in the medium to heavy-duty truck, bus, marine, mining and specialty applications. Thanks to our vertical integration, all energy and power system developments are carried out in-house. With specific design know ...

Freudenberg e-Power Systems (FEPS) stellt auf der diesjährigen Busworld Europe in Brüssel und der APTA in Orlando, Florida, sein neues Batteriepack XRANGETM für den CO2-freien Antrieb von Lkw und Bussen vor. Mit seinem neuen Batteriesystem stärkt FEPS seine Position als einer der weltweit führenden Anbieter von emissionsneutralen ...
