

Sustainable Earth Dominica has partnered with reputable international manufacturers to bring quality solar products to the Caribbean. Based in Dominica, we offer products, installation and maintenance services.

Yes, we strongly believe that a solar system with top quality brands is far better than a system with new or unknown brands. That's one of Sustainable Earth's main advantage. We bring the best brands to the Caribbean, and we are specialized in these.

Whether you require a rooftop solar plant, solar water heater, solar pump, solar light, or even a solar EV charging station, we have you covered. As a responsible solar energy company in Dominica, we are committed to promoting sustainable practices and reducing carbon footprints.

Investing in a home photovoltaic system off-grid with Lifepo4 batteries is profitable and pays off quickly. In the Dominican Republic there is a lot of sun all year round, so you can produce a lot of energy from your panels.

Dominica has a very high solar potential and set a renewable energy mix target of 100% by 2035. Presently Dominica's energy mix is comprised of 37% renewable energy on the public grid. Its electrical demand peaks at 13MW and its electricity prices are high relative to ...

Calculating the price per watt for a solar system is very straightforward -- it's simply the system cost divided by the number of watts in the system. Price per watt (\$/W) allows for an apples-to-apples comparison of different solar quotes that may vary in total wattage, solar panel brands, etc.
