

Home / About RKP
Rongke Power (RKP) is proud to announce the successful completion of the world's largest vanadium flow battery (VFB) project--a groundbreaking 175MW/700MWh energy storage system. This monumental achievement sets a new benchmark for long-duration energy storage, underscoring the power and potential of VFB technology in advancing a sustainable ...

Rongke Power announced completion of "the world's largest" vanadium flow battery system with a capacity of 175MW/700MWh. The Chinese company said on 5 December the Xinhua Ushi ESS Project, in Ushi, China, is designed to enhance grid stability, manage peak loads and integrate renewable energy seamlessly.

Rongke Power (RKP), the global leader in vanadium flow battery (VFB) technology, is proud to announce that it has surpassed 2 GWh of deployed utility-scale VFB energy storage systems worldwide. This achievement represents the largest installation capacity in the VFB sector to date, underscoring RKP's pivotal role in advancing scalable and ...
