

# Global ranking of photovoltaic inverter shipments

Which inverter vendors dominated the global photovoltaic market in 2022?

Huawei and Sungrow remained market leaders in 2022, as they have done since 2015, while AISWEI and SOFAR entered the top 10 ranking. The top 10 global photovoltaic (PV) inverter vendors accounted for 86% of the market - an increase of 4% year-over-year, whereas the top 3 players captured 60% of the market share for shipments in 2022.

What is the global PV inverter market share?

Global PV inverter shipments grew by 56% to 536 gigawatts alternating current (GWac) in 2023, reflecting a strong year for the broader solar industry. The top 10 global PV inverter vendors accounted for 81% of the market, according to Wood Mackenzie's 'Global solar inverter and module-level power electronics market share 2024' report.

Which PV inverter vendors shipped the most in 2022?

Wood Mackenzie said that the top five vendors shipped more than 200 GW (AC) and accounted for 71% of total global PV inverter shipments in 2022, up 8% from 2021. The report notes that for the top vendor of 2022, Huawei, shipments increased by 83%. Ginlong Solis posted growth of 86%.

Which PV inverter vendors shipped the most GWAC in 2022?

Wood Mackenzie noted that the top five vendors shipped more than 200 GWac and accounted for 71% of total global PV inverter shipments in 2022, up 8% from 2021. The report notes that 2022 top vendor Huawei shipment increased 83%. Ginlong Solis posted growth of 86%. For the eighth consecutive year, the top two vendors were Huawei and Sungrow.

How did global PV inverter shipments grow in 2023?

Global PV inverter shipments grew by 56% to 536 gigawatts alternating current (GWac) in 2023, reflecting a strong year for the broader solar industry. The top 10 global PV inverter vendors accounted for 81% of the market.

What are the top solar inverter vendors in 2022?

Global inverter shipments increased to 330 GWac with Huawei, Sungrow, Ginlong, Solis, Growatt and GoodWe named as the top vendors. The top 10 global solar inverter vendors accounted for 86% of market share in 2022, increasing by 4% year-over-year since 2021, according to a recent study by Wood Mackenzie.

Sineng Electric ranks No.4 worldwide in PV inverter shipments for 2023. The prestigious recognition from S&P Global Commodity Insights - the world's foremost provider of ...

PVTIME - Cohesion of PV brands promotes strong development of technology and services for solar energy

# Global ranking of photovoltaic inverter shipments

and energy storage industry.. On 22-23 May 2023, the CPC 8th Century Photovoltaic Conference ...

These vendors shipped 44 GW of inverters. Overall, global PV inverter shipments saw 48% growth year-over-year in 2022, with an additional 100 GW shipped from 2021. Improvements in chip shortages drives growth . ...

PVTIME - Renewable energy capacity additions reached a significant milestone in 2023, with an increase of almost 50% to nearly 510GW, mainly contributed by solar PV manufacturers around the world.. On June 11 ...

In 2022, Huawei had the largest PV inverter market shipments worldwide, accounting for some 29 percent of the market. Huawei was followed by Sungrow Power Supply and Ginlong Solis in the...

Global PV inverter shipments grew 22% or 40,250 MWac (mega-watt, alternating current) to 225,386 MWac in 2021 compared to 2020. This is mainly driven by strong growth in markets in Europe, India, and Latin America ...

HEFEI, July 11, 2024 - Sungrow, the global leading PV inverter and energy storage system provider, secured the top spot in the 2023 global PV inverter shipment rankings according to ...

The top five vendors - Huawei, Sungrow, Ginlong Solis, Growatt, and GoodWe - shipped more than 200 GWac and accounted for 71% of total global PV inverter shipments in 2022, growing 8% from 2021. Huawei's ...

A new analysis by Wood Mackenzie shows that the top 10 global solar photovoltaic (PV) inverter vendors accounted for 86% of market share in 2022, increasing by 4% year-over-year since ...

The global PV inverter market is expected to grow strongly over the next five years despite short term headwinds such as higher semiconductor components costs and higher freight costs. Suppliers continue to invest in new ...
