

What is GNB industrial power?

GNB Industrial Power - Stored energy solutions for motive and network power applications. Stored energy solutions for motive and network power applications. For information on Stryten Energy (formerly GNB Industrial Power) solutions in North America, South America and the Caribbean, please click below.

When will GNB industrial power rebrand to stryten energy?

The rebrand of GNB Industrial Power to Stryten Energy is expected to be complete at the end of 2022 with significant support provided for the company's dealer network and service partners to facilitate a successful brand transition.

Where is GNB Network Power made?

Quality Counts! GNB Network Power's state of the art manufacturing facilities in Columbus, Georgia and Fort Smith, Arkansas, USA are certified to ISO 9001 (quality) and ISO 14001 (environmental) standards. How Fast!

Does GNB's industrial power offer a charger for a 4 8 nm block?

\*GNB's Industrial Power as your partner for system solutions also offers optimised chargers for these blocks. Technical characteristics and data Drawings with terminal position, terminal and torque Not to scale! 4 8 Nm 20 Nm Specifications Nominal capacity 50 - 240 Ah (C 5 ) 55 - 270 Ah (C 20

What is GNB fleet's?

GNB Fleet's means maximum fleet uptime. Whether you have one site or many, our smart connected chargers provide GNB Fleet's with vital battery and charger information. Our next generation of fleet management detects issues with batteries or chargers well before your business is affected.

Why do you need a GNB service contract?

Leave the responsibility for the maintenance of your batteries and chargers to the professionals: a GNB service contract provides you with exceptional economic advantages through time savings, cost savings and safety! Get in touch! Energy that goes beyond.

GNB Industrial Power, a division of Exide Technologies, is a global leader in network power applications including communication/data networks, UPS systems for computers and control systems, electrical power generation and ...

GNB is a division of Exide Technologies, one of the world's largest producers and recyclers of lead-acid batteries. Our Industrial markets include network power applications such as telecommunications systems, electric utilities, railroads, photovoltaics, uninterruptible power supplies (UPSs), and motive-power applications including lift trucks, mining and other ...

technology batteries for most Motive Power applications. Sonnenschein was established in 1910 and under this brand, the famous dryfit technology was invented. The TENSOR brand stands for the innovative high-power battery made by GNB Industrial Power. Based on many years of experience with the CSM technology for submarine batteries and traction

GNB Industrial Power - The Industry Leader. GNB Industrial Power USA - Tel: 888.898.4462 Canada - Tel: 800.268.2698 GNB Industrial Power, a division of Exide Technologies, is a global leader in motive power battery and charger systems for electric lift trucks and other material handling equipment.

technology batteries for most Motive Power applications. Sonnenschein was established in 1910 and under this brand, the famous dryfit technology was invented.
