

Does Denmark have solar power?

Almost 44% of electricity in Denmark is supplied from Wind and Solar Power. The installed capacity of Solar PV is said to rise by 2024 with the production of 1,140 MW. There are solar-thermal districts that exist in Denmark and The Danish Energy Agency plans to host 400 MW PV projects in the Nisum Fjord location.

Who is GreenGo energy Germany?

GreenGo Energy Germany GmbH, the German arm of the Danish GreenGo Energy Group, has expanded its management team with the addition of two experienced professionals. Claas Oltmann and Dr. Philipp Schmagold, both with extensive backgrounds in renewable energy, join the company to lead efforts to develop large-scale, subsidy-free energy parks.

Who is Danish Energy Agency?

Danish Energy Agency was established in 1976 and is part of the Ministry of Climate, Energy, and Utilities. The company has successfully featured in our top renewable energy companies in Denmark list. It is responsible for the tasks that are associated with energy production.

What does Greenko do?

Greenko shall deliver variable electricity, storage services, dispatchable RE, green hydrogen, green ammonia, and green methanol, with plans to blend hydrogen into city gas. Greenko is committed to transitioning to a clean energy business and in doing so, has kept its focus on decarbonisation, digitalisation and decentralisation.

Is Greenko a 'net zero' company?

Greenko has committed to be a 'Net Zero' Company in Scope 2 by 2025 and Scope 1&2 in the next five years and in all scopes by 2040. Parallel to being "Large Scale Clean-Tech IPP", we are already an "Intelligent Energy Market and Deep Decarbonisation Specialist."

Why is Greenko a good investment?

Greenko harnesses opportunity as the country and the globe is transitioning to new energy that is consistent with the Paris climate goal and ambition. As this requires significant patient capital, Greenko continues to improve its debt capacity and access to capital.
