We specialize in designing, installing, and maintaining systems for reliable cooling, energy savings, and a cozy indoor atmosphere. Choose our eco-friendly R290 and R32 options for a sustainable indoor environment with reliable cooling.

Lightwork Power Caribbean is based in Grenada and we design and install systems that are designed with all the Caribbean considerations, codes and characteristics in mind. Quality equipment installed by our qualified electricians with zero shortcuts.

Solar panels can be mounted on rooftops or the ground, and convert particles of light energy, known as photons, into direct current (DC) electricity. An inverter changes DC power into alternating current (AC) to power your home or facility.

Solar energy can also help to create jobs and boost the local economy. Here are some of the benefits of solar energy in Grenada: Reduced electricity bills: Solar panels can generate electricity for your home or business, which can help you to save money on your electricity bills.
