

What is Guernsey's Electricity strategy?

In September 2023 The States of Guernsey agreed the Electricity Strategy. This detailed document covers the period up to 2050 and sets out a high-level strategic plan of how Guernsey could meet the anticipated increase in demand for electricity.

Will Guernsey Electricity invest in a new power station?

It allows Guernsey Electricity to invest in new diesel generators for the power station and investigate a new cable from France to Guernsey. Mr Roffey warned that unless the States made a decision on the future location for Guernsey's inert waste, there would not be space on the reclaimed land at Longue Hougue for a new power station.

When did Guernsey start using electricity?

In 1898 Edmundsons Electricity Corporation was granted the concession to build and operate an electricity supply in Guernsey. 7 kilometres (4.3 mi) of cables would have to be installed below ground within two years. In February 1900 150 kW could be generated from the power station at Les Amballes, St Peter Port. : 6-7

How many employees does Guernsey Electricity have?

Guernsey Electricity employs around 200 staff in a wide range of positions including retail, electrical operations, plumbing, finance, customer service, power station maintenance and engineering.

Who owns Guernsey power company?

The company is owned by the States of Guernsey with the Guernsey Competition and Regulatory Authorities (GCRA) regulating our core business of electricity generation, conveyance and supply. The Board is made up of three Executive Directors, five Non-Executive Directors and a Non-Executive Chair.

Why should Guernsey Electricity vote?

'This vote provides certainty and a clear strategic direction for Guernsey Electricity and the wider energy industry. The security and supply of our future energy are of paramount importance, along with affordability for islanders,' said Guernsey Electricity CEO Alan Bates.
