The easy-to-deploy satellite dish, with a built in WiFi router, and essential cables come packed in a portable design, making setup a breeze in any location. ... 1x Anker Power Pack - 250 Watt Solar Power Kits available to run the ...

My friend, I did the same as you. I have a 60W solar panel, a USB cable to the power bank, and the Anker 737 power bank. The antenna works perfectly when connected only to the power bank, but when I connect the solar panel to charge the power bank while it's powering the Starlink Mini, the antenna simply goes offline, and I can't use the internet.
