Honduras is on a mission to transform its energy landscape with a strong focus on renewables. In a bid to achieve an impressive 80% share of renewables in its power generation by 2038, the nation is taking bold steps towards reducing its reliance on fossil fuels. But how can Honduras turn its ambitious goals into reality?

In a recent interview, Honduras' new Energy Secretary outlined how his government is in touch with a number of industrial countries, such as Japan, Germany and the United States to gain further financial aid for its overall infrastructure, electricity transmission and distribution. Yet these are just preliminary talks, and given Honduras ...
