PepsiCo, a world leading food and beverage company has installed solar at its Honduran bottling plant in order to reduce power costs; better manage energy price fluctuations; be a more competitive, socially responsible company; and positively impact the environment by reducing its carbon footprint.

The power plant, designed by Orlando, Florida-based EPC Sybac Solar LLC, is expected to be complete early next year. Sybac Solar chose a decentralized approach for the Pavana Solar Park for myriad reasons, including reduced upfront and long-term costs, increased energy production and restricted site accessibility.

The company is grounded in generating solutions in electrical infrastructure, offering professional services to construct structures, develop electrical infrastructure to global standards, and build air conditioning and ventilation systems.

S M Power Solutions is an organization grounded in generating solutions in electrical, ELV (extra low voltage) and Data Networking (active and passive) sectors with the concept of energy conservation and adapting technology with its activities spreading across India.

Una empresa desarrolladora líder de sistemas fotovoltaicos para tejados de Honduras, Smartsolar, ha planificado la planta de 3 MW de San Pedro Sula con 98 inversores SMA Sunny Tripower 24000TL-US. La planta fotovoltaica tiene cerca de 3 420 kilómetros cuadrados.
