

# Installation diagram of Canadian Solar photovoltaic panels

Where can I find electrical characteristics of Canadian Solar crystalline silicon PV modules?

Detailed electrical and mechanical characteristics of Canadian Solar crystalline silicon PV modules can be found in Annex A (Module Specifications) on Main electrical characteristics at STC are also stated on each module label. Please refer to the datasheet or the product nameplate for the maximum system voltage.

Can Canadian solar modules be mounted on a single axis tracker?

Canadian Solar Inc. modules can be mounted on single-axis trackers using center clamps or mounting holes as described below. All the requirements of the standard module installation manual and specific tracker detailed installation instructions should apply.

Can Canadian solar modules be grounded?

Canadian Solar modules can be grounded using third party grounding devices as described below. The grounding methods are certified by CSA according to UL 1703. All the basic requirements of the main installation manual should apply to the alternative grounding methods.

Where can I find the latest version of the Canadian Solar manual?

We recommend checking regularly for the most updated version. The information contained in this manual is subject to change by Canadian Solar Inc. without prior notice. Canadian Solar Inc. gives no warranty of any kind whatsoever, either explicitly or implicitly, with respect to the information contained herein.

Does Canadian Solar provide mounting hardware?

Canadian Solar does not provide mounting hardware. Standard modules can be mounted onto a support structure using one of several approved methods as described below. For information about other installation methods, please contact your local representative. Failure to use a recognized installation method will void the Canadian Solar warranty.

Do you need a professional to install a PV module?

The installation and handling of PV modules require professional skills and should only be performed by qualified professionals. The installers must inform end-users (consumers) the aforesaid information accordingly. The word "module" or "PV module" used in this manual refers to one or more CS-series solar modules.
