

Could a solar farm boost Jersey's energy security?

Bosses said the plans for the 2.7 hectare site, meant electricity would be returned to the grid in a process which would "increase Jersey's energy security". A solar farm in Jersey could power 17% of the parish's homes if planning is approved, electricity bosses say.

What percentage of Jersey's energy supply is imported?

almost all of Jersey's energy supply was imported; about 2% was produced on-Island as electricity generated by the Energy Recovery Facility and Jersey Electricity solar panels petroleum products accounted for about three-fifths (60%) of Jersey's energy supply; electricity (imported and on-Island generated) accounted for the remainder (40%)

How is energy supplied to Jersey?

Energy is supplied to Jersey predominantly through imports; there is also a small amount of on-Island production. The primary supply of energy is either distributed to consumers in its original form or is transformed into different sources of energy; for example, petroleum products can be burned to generate electricity.

How is energy flow measured in Jersey?

The overall flow of energy in Jersey may be examined by combining all the individual commodity balances into an "energy balance" which shows the energy flows from production to final use, including movements between fuel categories.

What are the main sources of energy in Jersey?

In 2021, petroleum products (such as road fuels and heating oil) accounted for three-fifths (58%) of Jersey's FEC (see Figure 4). Electricity accounted for over a third (38%) and manufactured gas the remainder (3%). 7.5 FEC per capita for Jersey using mid-year population estimates.

Is Jersey under pressure to develop a long-term energy strategy?

Jersey's government is under pressure to develop a long term strategy for energy production and consumption, according to an island think tank. Mark Boleat from Policy Centre Jersey said "inertia is a problem"; identified within its report on energy policy.

Process. Fulcrum Energy Capital Funds continues strategy of acquiring assets through distressed and special situations investing at attractive valuations with most recent acquisition DENVER, Oct. 13, 2020 /PRNewswire/ -- Fulcrum Energy Capital Funds ...

Fulcrum was the first company to take shredded landfill waste, gasify it and then convert it into a liquid fuel. While technically challenging, garbage-to-fuels has long been tantalizing. That's because household waste is abundant and cheap, and it doesn't require additional acres for growing energy crops.

The leadership team at Fulcrum looks to Darcy for guidance in scaling the company to meet the needs of Fulcrum's government clients. With Darcy's acute experience scaling two separate companies, she is well positioned to lead Fulcrum's immediate growth efforts. Darcy believes strongly in leading by example and being true to one's word.
