Did LG invest in unigrid?

SAN DIEGO, Oct. 22, 2024/PRNewswire/-- LG Technology Ventures, has made an investment in UNIGRID Inc., a California-based startup that develops advanced sodium-ion batteries, placing a stake in the emerging sodium ion battery development space.

Who is unigrid battery?

About UNIGRID Battery UNIGRID Battery, a University of California, San Diego spin-off company, was founded in 2021 from the groundbreaking Ph.D. research work by Dr. Darren H. S. Tan and Dr. Erik A. Wu, who were both advised by Prof. Zheng Chen and Prof. Shirley Meng, prominent figures in the battery field.

Will unigrid deliver advanced sodium ion batteries in 2024?

Erik A. Wu, CTO of UNIGRID. Third party testing and validation on the advanced sodium ion batteries has been completed, and UNIGRID is on track to deliver MWh quantities of its advanced sodium ion batteries to customers in 2024.

Are unigrid batteries safe?

UNIGRID's sodium-ion batteries are unlike any other. Built in safety. For peace of mind. Third-party tested for safety, you will not find a safer sodium-ion battery with comparable performance. Our sodium-ion batteries do not undergo thermal runaway.

Are unigrid batteries a "drop-in" solution?

UNIGRID batteries are a true "drop-in" solution. We use the same cylindrical and prismatic form factor as lithium-ion batteries, making a switch to our smarter, safer sodium-ion batteries seamless. Test the power of UNIGRID for yourself. Take the Sodium-Ion Challenge.

This proposal introduces the Unigrid DAO Constitution, a comprehensive document outlining the governance, operational, and legal framework for the Unigrid DAO. The constitution addresses key areas such as on-chain governance, tokenomics, treasury management, institutional structure, and regulatory compliance.
