

Are Bonaire and Sint-Eustatius honoured?

Late last week, the good news was received that the project proposals of Bonaire, Sint-Eustatius and Saba were honoured. They are the only islands in the Caribbean whose proposals made it through the selection.

Does Bonaire have a utility company?

The utility company for Bonaire is Water-En Energiebedrijf Bonaire N.V. (WEB), which supplies both water and electricity to the island. WEB is a government-owned entity and is strictly a distribution utility, owning no generation of its own.

Does Bonaire have a regulated electricity sector?

In recent years, the Ministry of Economic Affairs in the Netherlands has been active in reforming the regulation of the electricity sector in Bonaire, both in terms of utility regulation and expanding generator access.¹³

How much does energy cost in Bonaire?

This profile provides a snapshot of the energy landscape of Bonaire, a special municipality of the Kingdom of the Netherlands located on the coast of Venezuela. Bonaire's utility rates are approximately \$0.35 per kilowatt-hour (kWh), above the Caribbean regional average of \$0.33/kWh.

What makes Kenera unique?

Kenera brings together over 130 years of experience and the knowledge, skills and expertise of the KCA Deutag Group, RDS and Bentec, to deliver customer-centric solutions in hydrocarbons and renewables. Through our global presence, we are delivering innovative solutions and quality products fit for the world's harshest environments.

Who regulates Bonaire?

As a special municipality of the Kingdom of the Netherlands, Bonaire is largely regulated by ministries of the Netherlands' national government.

Whether it's providing trained technicians to support services and maintenance, developing fit-for-market engineering solutions for on and offshore energy facilities, or component manufacturing for renewables and hydrocarbons, we have the expertise and experience to meet - and exceed - our customers' needs.
