

Why should you choose krannich solar?

In looking to the future, Krannich Solar attaches great importance to providing customers with sound advice and high product quality. Which means that only high-quality components are included in the photovoltaic wholesaler's product range.

Who is krannich solar?

Krannich Solar is synonymous with over 25 years of professional experience. Experts with in-depth market familiarity and skill, with specialist knowledge and a flair for identifying trends. Originally a two-man operation, Krannich today is a successful international company with 31 branches in 27 countries and 1000+ employees all over the world.

Does Palestine have a potential for solar power?

The Palestinian territory has a high potential for solar power generation, as it receives around 3,000 hours of sunshine per year. As a result, the Palestinian Authority is looking to attract investments in the renewable energy sector. Inauguration of the solar power plant in a school in Beit Hanina, Jerusalem.

What makes krannich unique?

The trading company thus rose to become one of the leading names on the global photovoltaic market. Today Krannich focuses its operations on the distribution of all components that make up a PV system. Our primary features are our roster of longstanding partners, our smart technology, our state-of-the-art systems - and our dynamic people.

Is Palestine a good place to invest in solar energy?

Palestine has some of the highest rate of solar water heating in the region, and there are a number of solar power projects. A number of issues confront renewable energy development; a lack of national infrastructure and the limited regulatory framework of the Oslo Accords are both barriers to investment.

Can Palestinians achieve 10 percent of electricity production from renewable sources?

The Palestinian Energy Authority issued a renewable energy strategy in 2012 that aims to gradually achieve 10 percent of electricity production from renewable sources by the end of 2020. According to the strategy, this goal can be achieved if certain prerequisites are attained.
