

Will BlackRock Real Assets invest in Kredo holdings?

BlackRock Real Assets' investment in KREDO Holdings will help South Korea minimise its carbon emission levels. BlackRock Real Assets has acquired South Korean renewable energy company Korea Renewable Energy Development and Operation Holdings (KREDO Holdings), formerly known as IGIS Private Equity.

Who owns Kredo holdings?

In July 2021, Global Renewable Power Fund III managed by BlackRock, the world's largest asset manager, became the sole shareholder of KREDO Holdings. This not only benefits our ongoing investment in large-scale new and renewable energy projects, but also enables us to access bigger opportunities.

What does Kredo holdings do?

KREDO Holdings is deeply involved in all areas and markets related to green energy and our climate future, covering development, construction, and operation of large-scale solar power, onshore and offshore wind power, energy storage system, fuel cell, hydrogen, and other climate infrastructure projects.

Who is Kredo & Igis private equity?

KREDO, previously known as IGIS Private Equity, is one of South Korea's largest renewables developers. It owns an advanced pipeline of offshore wind and other renewables assets amounting to over 2GW in power generation capacity.
